

Green Valley General Hospital - Operations Report

Document ID: OPS-2026-01

Department: hospital_operations

Document Date: 2026-01-15

Executive Summary

Green Valley General Hospital reviewed operational performance for January 2026.

The emergency department average patient wait time was 42 minutes.

The hospital target for emergency department average wait time was 45 minutes.

The inpatient bed occupancy rate was 82 percent.

The hospital recorded an average discharge processing time of 38 minutes.

Operational priorities for February include reducing emergency department wait times and improving discharge coordination.
